

Multiplying Hope at Long Lake

After acquiring the lakeside land at Smith's Cove, Kingdom Capital Fund built this home by multiplying donated time, treasure, and talents to raise funds for Christian ministry. Local companies with a heart for the Gospel donated building materials like wood and siding and/or constructing time and skill to take that initial land investment and grow it into the beautiful home here to maximize benefits for the Kingdom of God. The funds gathered through this project support local and global ministries. The buyer of this home not only gets the lake home of their dreams; their purchase has an eternal impact.
